TABLE 1

Plans are expected to develop an incentive program for providers. Performance measures should be defined by the Plan, and based on the percentage of your assigned members that actually receive services. Plans should include in the incentive program a specific measure for preventative services. The program should apply to all enrolled Medi-Cal children (ages 0-20 years) assigned to the plan. Plans are expected to review provider encounter data to identify beneficiaries that have not been seen in their dental office in a year. Plans are expected to halt all new enrollments for provider offices that do not meet certain thresholds of utilization. This table reflects the summary results of the monthly provider utilization and the actions taken.
