Revised Reporting and Timeline for Provider Relief Fund Payments

On June 11, 2021, the U.S. Department of Health and Human Services (HHS) released revised reporting requirements for recipients of Provider Relief Fund (PRF) payments. The revision:

- Expands the amount of time to report information
- Aims to reduce burdens on smaller provider offices
- Extends key deadlines for expending PRF payments for recipients who received payments after June 30, 2020

Key Updates

- » The period of availability of funds is based on the date the payment is received (rather than requiring all payments be used by June 30, 2021, regardless of when they were received).
- » Recipients are required to report for each Payment Received Period in which they received one or more payments exceeding, in the aggregate, \$10,000 (rather than \$10,000 cumulatively across all PRF payments).

Continued on pg 2

- » Recipients will have a 90-day period to complete reporting (rather than a 30-day reporting period).
- » The reporting requirements are now applicable to recipients of the Skilled Nursing Facility and Nursing Home Infection Control Distribution in addition to General and other Targeted Distributions.
- » The PRF Reporting Portal will open for providers to start submitting information on July 1, 2021.

The full press release can be found [here](#) and revised reporting requirements can be found [here](#). For updates and to learn more about the Provider Relief Program, visit [here](#).
