Denti-Cal Web Site Change Announcement

The Denti-Cal Web site is changing!

The State of California has developed a new style for all California State Government Web sites to meet increased usability and accessibility standards. The new Denti-Cal site will be launched in November 2007.

This will allow for easier access to seminar schedules, bulletins, provider manuals, and NPI-related topics. Additional changes include:

- New look and feel
- Easier navigation to key topics and sections
- Improved search capability
- Direct access to the Web Tool Box

Please visit www.denti-cal.ca.gov regularly for informative updates and for the new changes.
